## BUSINESS VALUES SOIL CONSERVATION

Industrialists like Harvey S. Firestone Jr. are becoming more interested in soil conservation. Mr. Firestone told 1-H club members in Chicago that "The lives of the world's population depends upon the productivity of the top four inches" of soil. He warned against the dangers of erosion in this country.

The nation has only begun to become aware of the importance of soil. Our efforts to solve the problem have followed the pattern of the entire society: That of accepting the drift and trying to do something to accommodate ourselves to it.

Big commercial farming of cash crops threw soil tilth out of balance. It took away fertility without adequate means of replacing fertility. Single crops year after year encourage erosion. Value of land and use of giant farm machinery caused farmers to remove trees, hedges and natural protection for the soil.

Farming has changed from a way of life to a big business and, as a big business, it has been robbing the soil. Whether we can restore and preserve fertility within the cash crop, commercial farming framework is doubtful.

There is a beginning trend toward more diversified agriculture. Greater use of livestock changes the farm from a cash crop operation to a factory processing the grain or the land. The waste goes back on the land to keep it fertile.

Interest shown in the great International Livestock exposition just ended in Chicago is an expression of that trend. It's encouragement is imperative if we are to have a permanent agriculture.

## Kansas Trooper Fells Fugitive After 11-Day Run

Rulo, Neb., Dec. 5.—(P)—William Dunkin, as slippery a fugitive as ever cracked a police net, is dead.

A Kansas trooper's gun felled him yesterday, 11 days after the Omaha man escaped from the Nebraska penitentiary in Lincoln.

Luck ran out for Dunkin at the edge of this tiny southeast Nebraska corner town after a wild chase over dusty country roads in the adjoining Kansas area.

Dunkin's car, probably the tenth he had stolen in his mad, desperate travels, overturned at the edge of town.

Kansas state patrolman W. W. Smith, leading the pursuit, pulled up about 50 feet away and ordered the 36 year old convict to "put your hands up and come on out."

Dunkin answered with gunfire and the battle was on. Dunkin died during an exchange of shots.

Since Thanksgiving eve, when the convict slipped away from prison in a truck, he had eluded police blocks and manhunt nets one after the other. His exploits, marked by fabulous luck and fool bravado, had harassed officers in five states—Nebraska, Missouri, Kansas, Indiana and Iowa.

He disarmed a Missouri state trooper near St. Louis. He stole the personal automobile of another Missouri patrolman at Elsberry. He got away from Michigan City, Ind., police who were bringing him in for questioning. He took an easily identifiable Nebraska state patrol car from two Omaha patrolmen at gunpoint.

## What To Do With Christmas Ties

By HAL BOYLE

New York.—(P)—There ought to be a society to prevent the presentation of neckties as Christmas gifts.

But there isn't. So again this year some 50,000,000 or more writhing American males will be showered with an unwelcome collection of tonsil muffers.

Women insist on giving men ties, and they pick them on one of two principles:

1. As if they were buying draperies.
2. As if they were selecting a lining for their husband's coffin.

What can be done about this annual misery?

Cowards Wear Them

Well, the cowardly way out is to go ahead and wear the things, slinking about like a self-conscious version of a marriage between a rainbow and the northern lights.

But there are bolder ways out for men who still pride themselves on rugged individualism. A simple exit for the problem is merely to stuff the ties down the nearest incinerator. Or bribe the janitor to take them.

These techniques, however, show little imagination. A little survey I made disclosed several more original methods of dealing with this plague.

"I am saving mine up until I have enough to hang Santa Claus," an angry gentleman reported.

Another man said he had found it easy to cure his wife of giving him neckties.

"I just started wearing them with my Tuxedo," he said. "She didn't talk to me for a week. (She said, 'But she hasn't given me a tie since.')"

Decorators Item

A bachelor of my acquaintance, on the other hand, stoutly insists he wouldn't give up the pleasure of Christmas neckties for anything.

"I use the drab ones to line my closets," he said, "and I frame the bright ones and hang them up as pictures. You should see them—nudes, landscapes, hunting scenes. You have no idea what fine art is put on those ties."

Another fellow weaves them into skipping ropes for his daughters. One father I know saves the cheaper ties and uses them to dye eggs for his kids at Easter.

And a television fan suggested:

"I got so tired of seeing those flickering tweed herringbone lines on my set I hang Christmas ties in front of my TV screen just to change the pattern."

An older friend said that for years James A. Phillips, 76, president-emeritus of the Order of Railway Conductors, died in a hospital here last night.

Phillips underwent a major operation last week.

flounder wrapped in a tie she had given me the week before," he lamented. "I don't know what to do this year."

No Trouble Now

With me it is no trouble at all anymore. For a long time I had difficulty in jettisoning old razor blades. Then I lit on the happy idea of simply dropping them in an envelope and addressing it to the company that made them. This worked fine—sometimes I even got a new blade back.

But now, whenever anyone gives me a Christmas necktie, I kill two birds at one stone. I simply send him a used razor blade by return mail—with a suggestion that he may find it of some use.

And whether he cuts his throat with it or not—well, at least he won't send me any more Christmas neckties.

## Welfare Spending Largest Item On Illinois Budget

Springfield, Ill., Dec. 5.—(P)—The state spends more than two thirds of its \$635,000,000 annual budget for welfare, education and highways, finance director George W. Mitchell reported yesterday.

These three purposes use up \$488,000,000 with welfare the largest item, he said. Another \$40,000,000 goes for interest on highway and veterans' bonus bonds, and the balance of less than \$100,000,000 pays for other phases of state government.

Mitchell's radio report was the second of a series by state department heads on government activities.

The budget includes \$212,000,000 for public aid, institution operation and buildings and another welfare purposes, he said. The second largest item is \$140,000,000 for education.

Mitchell said many economies have been made but they can be achieved "only with much effort and sustained pressure from the public."

"Many dis-economies in government have become so thoroughly entrenched that they cannot be eliminated without overcoming powerful resistance," he declared.

## WELL-KNOWN RETIRED RAILROADMAN DIES

Cedar Rapids, Ia., Dec. 5.—(P)—James A. Phillips, 76, president-emeritus of the Order of Railway Conductors, died in a hospital here last night.

Phillips underwent a major operation last week.

## College Scientist Regains Sight Lost By Atom Rays

Pittsburgh, Dec. 5.—(P)—A college professor, blinded a year ago by atom rays, can see today—thanks to medical science.

He is Dr. Alexander J. Allen, 48, in charge of the University of Pittsburgh's atom-busting cyclotron. Neutron radiation maimed his eyes and he didn't even know it.

"It happened while we were adjusting the cyclotron," Dr. Allen recalled. "The adjustments are a very tedious job. One quick look inside can save you hours of work. Now we leave it strictly alone while it's working."

It was months later before Dr. Allen's vision began to fail. By April of 1949 he could barely distinguish between daylight and dark.

"It was just like walking in a heavy fog—a very heavy fog," he said.

Last July he went to New York's Columbia Presbyterian Medical center. There Dr. Algernon Reese removed the fogged lens of Dr. Allen's right eye. The atom expert now sees with the aid of heavy-lensed spectacles.

## Pair Sentenced To Life In Prison For Double Slaying

Harrisonville, Mo., Dec. 5.—(P)—Two men pleaded guilty Saturday and were sentenced to life in prison for a double slaying near Pleasant Hill October 11.

They were Ellsworth Harvey Farrell, 26, of Salem, Ill., and Thomas Henry Schindorf, 26, of Pleasant Hill. Their victims were Vaughn Wilmoth 38, a farmer, and his son, Jack Wilmoth, 17.

Circuit Judge James R. Garrison passed sentence which the men will start serving immediately.

Arrested in Kansas City a few hours after the killings and before the bodies had been discovered, Farrell and Schindorf each made statements accusing the other.

Prosecutor William M. Kinberlin said, however, that in statements made here a month ago Farrell admitted he had fired five shots and Schindorf one.

They said they had gone to the Vaughn farm to steal the farmer's new automobile. Asked why they killed Vaughn and his son, each answered: "I don't know."

Both pleaded guilty to first degree murder charges.

## Student Charged With Murder In Poison Deaths

Sidney, Ia., Dec. 5.—(P)—A bookish, bespectacled young student stood charged with murder today while authorities dug for evidence in poison deaths of his widowed mother and grandparents.

Disclosure of the mysterious deaths within 16 months of three members of a Tabor, Ia., household and recovery by a possible fourth victim came Saturday with the announced arrest of Lyman Harvey Elefson.

The good-looking, 22-year old former University of Iowa student was being held in county jail on a specific charge of murdering his maternal grandfather, Alonzo Lyman Rhoads, 75.

Elefson, described by County Attorney Harold I. Martin as a "Left Wing intellectual," and a "quite brilliant chap," stoutly denied having had anything to do with the deaths.

Martin said that with the death of his widowed mother, Elefson became administrator of her estate amounting to about \$15,000. She had inherited a portion of this from her parents.

Elefson's grandfather, a well-to-do Tabor farmer, died last April after a brief illness. The boy's grandmother had died, also after a brief illness, in May, 1948.

Mrs. Elefson, a widow since 1941 died last August after becoming unexpectedly ill. Her body was cremated shortly after her death.

Bodies of the grandparents have been exhumed and traces of poison found in remains of the grandfather Martin said. Analysis of the grandmother's remains has not been completed.

## KILLED IN COLLISION

Peoria, Ill., Dec. 5.—(P)—William W. Jones, 49, operator of a restaurant at Princeville, was killed in an automobile-truck collision today.

Police said Jones' car hit the side of a truck on State Route 9 near Dunlap, about 10 miles northwest of Peoria. The truck driver, James Shippee, Peoria, was not hurt.

### Mrs. Cleeland To Give Lecture In Springfield

Mrs. Charlotte Swanson Cleeland, interior decorator and teacher of design at MacMurray college, will deliver an illustrated lecture on "Contemporary Design for the Home" before members of the Springfield Art Association on Tuesday.

CHARLOTTE S. CLEELAND Mrs. Cleeland's thesis is to relate what she calls a "new world of space" with the new inventions, new products, new materials and new approach to the design of homes which characterize the present generation. She will attempt to demonstrate what the best modern design has to offer and to discover whether modern designers have developed a style of beauty that is expressive of this age, thereby giving a better setting for today's interiors. Illustrations in the screen will include many types of contemporary living rooms, the best of modern furniture by some of today's most outstanding designers, and rugs, wallpaper and fabric samples in the contemporary manner. On exhibition will be photographs and prints of various styles of today's design in furniture and samples and decorator's lengths from fabric designers, most of whom design exclusively for today's interiors. Mrs. Cleeland studied interior decoration at Parsons New York School of Fine Arts and Applied Arts. She studied architecture at Kansas State college and painting at the Art Students' League of New York. Before her marriage she was head of the art department of Albion college, Michigan.

### Install Guard System At Passavant Hospital

The new Detex guardsman Clock system which was installed in Passavant Memorial Hospital last month, has been placed in operation and assures the hospital a thorough check of the entire building once every hour.

Eleven stations have been installed in the hospital from basement to attic. The system is placed in operation each night from 7:40 until 5 o'clock.

The guardsman makes a round of the building once an hour and visits every corner of the hospital. It requires about twenty minutes for him to make an entire round.

The watchman carries a clock strap around his neck. As he visits each station he removes a key from a small box and turns it in the clock which registers the number of the station and the time.

The watchman by making these frequent tours through the building quickly detects anything that might be wrong in the heating, electrical apparatus and also be on the lookout for fires.

He is also given the assignment of assisting the nurses and is called for emergencies.

The watchman does not use the elevator in making his rounds, being required to climb all stairways.

The boxes containing keys to the master clock have been located on the boiler room, the end of the basement, the west end basement, the west first floor pavilion, the west end of the second floor, the attic, the tower room, on the third floor, the surgery fire escape, on the

second floor, the end fire escape of the second floor, the east end of the first floor and the basement in the Fry Nurses Home on East Douglas avenue.

The master clock is so constructed that it can take care of 32 stations, 21 more than in use now.

The equipment can be transferred to the Passavant Memorial Area Hospital when that building is completed and additional stations added.

## MOVEMENTS SLIGHT IN GRAIN MARKET

Chicago, Dec. 5. —(P)—Grains did not get very far in either direction on the board of trade today. They had to absorb a little profit-taking, which was not very heavy considering the extent of the advance over the past several weeks.

While the market backed and filled throughout the day, a few new seasonal highs were eked out by small margins. In this category were all wheat deliveries. May and July corn also reached new tops at one time. July oats equalled its former high.

The near-by corn and oats deliveries developed considerable weakness at one time, although recovering later. One reason was a lowering trend in the cash markets. Another was the expectation that 250,000 bushels of cash corn would be delivered on December contracts tomorrow.

### 7 Midwest Grid Stars On Look's All-American 11

New York, Dec. 5.—(AP)—Seven players from the Midwest, three from Notre Dame, were placed on the 1949 all-star football team announced today by Look magazine.

The team, selected by Grantland Rice and the Football Writers Association of America:

Ends—Leon Hart, Notre Dame; James Williams, Rice. Tackles—Wade Walker, Oklahoma; Robert Wahl, Michigan. Guards—Rodney Franz, California; Edward Bagdon, Michigan State; center—Clayton Tonnemaker, Minnesota. Backs—Arnold Galiffa, Army; Emil Sitko and Robert Williams, Notre Dame; Oak Walker, Southern Methodist.

### Walker, Justice To Captain Rival Teams In Contest

Jacksonville, Fla., Dec. 5.—(AP)—Oak Walker and Charlie Justice, most publicized All-American backs since the war, will be football opponents for the first time in the Senior Bowl here, Jan. 7.

Walker of Southern Methodist will captain a team of college seniors from the southwest, west, midwest and east. Justice of North Carolina will head the rival team made up of seniors from the south and southeast.

They were the first players announced for the game, which promoter Jimmy Pearce of Nashville says will include all the best seniors in the nation.

Along with Walker and Justice he revealed the names of four other players today.

North Carolina ends Art Weiner and Kenny Powell will join Justice to keep intact the passing combination that rated the Tarheels among the best teams in the country for three straight years.

Walker will have SMU teammates Dick McKissack, a back, and Jack Halliday, a guard, with him on the "Yankee" squad.

Bo McMillin of the Detroit Lions and Clarence "Biggie" Munn of Michigan State will coach the "Yankees." Steve Owen of the New York Giants and Buddy Parker of the Chicago Cardinals will coach the "Rebels."

The game will mark the professional debut of the players. Plans call for them to share in the gate receipts.

## Illinois Valley Cage Race Starts Friday

By John Campbell

The Illinois Valley conference teams get down to serious business this week with three loop games scheduled for Friday night.

The defending champs, Winchester's Wildcats of Coach E. W. Posey play the Hannuam coached Carrollton Hawks on the Scott County boards Friday night. The Jerseyville Panthers, losers to Gillespie's fine South Central team last week, 69-39 travel to Greenfield for another important Valley game. Roodhouse high lost to Pittsfield 57-26 last week and play at White Hall in conference games. Jerseyville, Carrollton and Roodhouse played last season in conference games. Jerseyville won over the Greenfield five in both Valley games played last season. Jerseyville, Carrollton and Roodhouse finished the 1949 season in tie for second place in the conference standings.

Normal high won over Winchester 67-38 last week while the Carrollton Hawks dropped a game at Griggsville 79-49. Pittsfield, strong Western Illinois team again are traveling at a fast clip and won over Beardstown and Roodhouse last week. The Saukrees play at home Tuesday night with the fast breaking Winchester five and travel to Jacksonville for a

Basketball rules and their interpretation from an official's eye view was the main topic of discussion at a meeting of the Athletic Boosters Club in the Elk clubrooms last night.

Harry Fitzhugh, well-known for his basketball officiating, was the guest speaker.

The veteran referee, also a board member of the Illinois High School Athletic Association and principal of Franklin high school, first covered the new rules as they have been introduced for the '49-50 season.

He followed by relating some little known rules that have existed for several years, and ended by telling of the "squabbles" that arise through ignorance of the basketball "laws."

Fitzhugh congratulated the Boosters for their efforts in forming the organization and predicted that as a result, Jacksonville will see athletic rise to a higher plane.

About 50 members heard the speech.

He also applauded the local coaches whom he described as an "exceptionally fine group of gentlemen."

An informal discussion of the rules and rule changes, designed to give every Booster a thorough knowledge of why an official blows his whistle, was allowed in conjunction with the talk.

A film illustrating a wide variety of rules and explaining why they had to be, was shown by the Boosters at the conclusion of the meeting.

Fitzhugh was introduced by chairman Elmer Lukeman who opened the meeting by re-reading the revised club charter and announcing delegates to the Booster club board which will take office in January.

Chambersburg—The South Jacksonville kid cagers tied another scalp to their belts when they tampered the Chambersburg graders 27-19 here last night.

Reggie Kemp led the scoring parade with 15 tallies for the South Jacks. Klienlieng got six points for Chambersburg.

The Chambersburg seconds downed the South Jacksonville reserves 33-14 in the curtain-raiser.

## Eastern College Athletic Meeting Begins Today

New York, Dec. 5.—(AP)—The annual meeting of the eastern college athletic conference gets under way tomorrow with the biggest problem confronting the 150 athletic officials: what to do about television?

In many sections of the country TV has meant little to college football, but in the east it has hit attendance figures considerably, and the colleges are the first to admit it.

It seems almost certain that Asa Bushnell, ECAC commissioner, who has been urging the colleges to do something about video for the past two years, will lead the fight to have the eastern schools take a united stand against TV when the NCAA meets here next month.

The eastern group probably could take action against television, but Bushnell would prefer to have the NCAA spearhead the drive. He indicated his group will draw up recommendations to place before the national body.

**Rams Lose To Cards**

The Rams blew their chance yesterday to wrap up the Western division crown in the NFL, losing a 31-27 decision to the Chicago Cardinals at home to the chagrin of more than 74,000 rooters.

The Rams, who won seven games, lost two and tied two, still figured to wind up as the team that will meet the Philadelphia Eagles, Eastern Division winners, in the league playoff for the title Dec. 18.

Their setback, coupled with a 30-21 victory for the second-place Bears over the Pittsburgh Steelers at Chicago, kept the Western race alive.

The Rams, who won seven games, lost two and tied two, still figured to wind up as the team that will meet the Philadelphia Eagles, Eastern Division winners, in the league playoff for the title Dec. 18.

Their next Sunday opponents will be the Washington Redskins, no ball of fire, while the Bears, who have an 8-3-0 record, must tackle the tough Cardinals. Only a Ram defeat and a Bear triumph can put the Chicagoans on top.

**Eagles Crush Giants**

The Eagles, who had cemented first place in the eastern circuit a week before, had a mere workout in crushing New York's second-place Giants, 24-3, at the Polo Grounds.

In other NFL games, Detroit edged the New York Bulldogs at home, 28-27, and at Washington, the Redskins routed Green Bay, 30-0.

The Browns-Bills playoff was a battle of aerials, with 45 passes setting a new league record. Cleveland's Otto Graham, ace of the AAC, connected with 22 of 43 pitches, two for touchdowns, and had a total of 326 yards. Buffalo's George Ratterman completed 21 of 39 attempts, three of them for touchdowns, and totaled 233 yards.

**Rally Just Missed**

Frankie Albert's passing and running were big factors in the 49ers' win over the Yankees, who made two last period bids that barely fell short. Joe Vetrano, place-kicking specialist for San Francisco, kicked a 38-yard field goal and both extra points, running his consecutive string to 106.

The Rams appeared to have their game, and first place, clinched with a 24-10 lead entering the final quarter. Then things happened, including a heart-breaking fumble.

The third of three late Cardinal touchdowns came as the gun sounded on Paul Christman's payoff pitch of 24 yards to Billy Dewell in the end zone.

**Almost A Toss Off**

But it was Jethroe, a flash on the base paths, who played havoc with the league's pitchers and catchers. The fleet-footed flycatcher let in six individual offensive departments, including a record-breaking 89 stolen bases. The East St. Louis, Ill., product snapped Ed Miller's modern mark of 87 set back in 1919 with Newark.

Jethroe also paced the league in hits, 207; triples, 19; total bases, 330; runs, 154, and finished second to Morgan in batting with a .328 mark. His 20-game hitting streak also was high for the season.

The Boston Braves purchased the 29-year-old switch-hitter from the Brooklyn Dodgers last Oct. 1 for an undisclosed amount of cash.

State Rep. Robert L. Burhans (R-Peoria) was named vice chairman. The commission voted to begin its study at a meeting in Peoria in January.

## Cleveland Meets 49ers Sunday In Final Game For All-America Title

New York, Dec. 5.—(AP)—Cleveland and San Francisco meet next Monday for the All-American football championship while the National League's regular season ends with the Chicago Bears trying to overtake the Los Angeles Rams for Western division honors.

In yesterday's AAC semifinal playoffs, Cleveland's Browns eliminated the Buffalo Bills, 31-21, with 17,270 fans on hand at Cleveland. At San Francisco, the 49ers outplayed the New York Yankees, 17-7, before 41,393 spectators.

In Sunday's final at Cleveland, the Browns will seek to keep the title they've held since the conference's inception in 1946.

## Griggsville Five Outpoints Bluffs In 58-48 Tangle

Bluffs—A battling Bluffs Bluejay five pecked away at high-scoring Griggsville here last night and marked what might be termed a moral victory for Scott county fans when they held Eddie Willard's highly-gearred outfit to a 58-48 victory.

Bluffs was outclassed in the early minutes of the ball game and dragged 27-17 at halftime. After that, it was even up between the two clubs as the Bluejays trailed 41-32 at the third quarter and 58-48 at the final horn.

James, Bluffs center, was top point maker for the evening, getting 18 markers. Shelton scored 15 for Griggsville.

We've neglected an important reportorial chore long enough so we'll tell the story of Bluejay Bill Shouse's broken finger before he's forced to quit playing and we look bad. Bill broke a middle finger on his left hand during a practice session last Thursday. Though his hand was in a cast, he trotted out against Iowa Wesleyan Friday evening and rang up 26 points. He came home Saturday night and scored 11 more. Recent rumors have it that Bill will have to quit playing until January because of the "busted" digit. He's scored 36 points in two games with the extremely bandaged so why should he quit when he's ahead—poker players, horse players, and other players, never do. Healing pains maybe?

**Harry Fitzhugh, while speaking to the Athletic Boosters last night, brought to light another "miss" on our strike-out parade. He told of how Bobby Grove threw a flat pass to center Bob Murrin in the McKendree cage mixer here Saturday night, only to have the dog-one thing double cross him and go through the basket instead. Bob, usually as expressionless as a keg of molasses, kinda smiled when the leather zipped the cords without so much as an argument with the rim and quietly resumed a defensive attitude before most people had caught on.**

Those Boosters, by the way, are getting up quite a head of steam and will soon be putting the Jacksonville athletic program on the success board express.

**From the condition of David Prince gymnasium last Friday night we don't know where any additional fans could be berthed if they should climb aboard the band wagon. About all the Boosters can do is raid the zoo and pick up some fans with long tails who could hang from the rafters.**

**There's three gyms to meet in tonight and Jacksonville fans who don't get in on this deal had better install television and wait for the renaissance.**

The vacuum bottle was invented by Sir James Dewar about 1892.

## Rockets, Tigers Play Conference Foes, JHS Entertains Virden

Virden at JHS (7 & 8:30 p.m.)  
Perry at Rott (7 & 8:30 p.m.)  
Bluffs at ISD (7 & 8:30 p.m.)

**OTHERS**

Winchester at Pittsfield.  
Arenzville at Kincaid.  
Beardstown at Virginia.  
Roodhouse at Waverly.  
Chapin at Chambersburg.  
Auburn at New Berlin.  
Chandlerville at Tallula.  
Mt. Sterling at Meredosia.  
Northwestern at Carrollton.

Whether you live in the westend, eastside or downtown in Jacksonville there's a basketball game in your neighborhood tonight. All three local high school quintets are girding themselves for defense of home courts on this evening's packed schedule.

Jacksonville high school's highly represented Crimson make their second appearance before home fans on the David Prince boards, playing 9 host to Virden of the M.S.M. conference. Spike Wilson throws his unbeaten ISD defenders against a tall, but winless Bluffs Bluejay five in a PMBC scrap while the Rott Rockets, smarting from a 20 point defeat in the hands of Cathedral's breezy Cyclones Saturday night, get 1 set to take it out on Perry in another 2 league tangle.

**Games Start At 7 P. M.**

All preliminaries will get underway at 7 p.m. with the headlines set for 8:30. The David Prince and Our Saviour's gyms, with a limited seating capacity, are expected to fill up quickly. ISD, with its adequate arrangement, will have plenty of seats for the fans.

Jacksonville could well see the locals wipe the slate clean this evening, annexing victories in all three gyms. Neither Perry nor Bluffs have won a single contest to date while Virden is not expected to measure up to the high-powered Crimson offense. The Virdenites did, however, clip Divernon by a five point margin in their opener a week ago.

JHS and ISD have been impressive in winning their first two starts of the season. The Jacks dumped Virginia by a tidy margin in their opener and then came home last Friday night to treat fans to a nifty 48-44 victory over Feltshams of Springfield. They'll be gunning for three in a row tonight.

**Crimson Starters**

The Crimson starting lineup will look something like this. Bill Williams and Jack Chapman, forwards; Maylon Baldwin, center; Ron Kemp

and Ike Wright, guards. Harvey Myers, John Rhodes and Dick Gotschall will see action as reserves.

Boasting wins over Waverly and Perry, the westend Tigers take on a towering Bluffs five who probably won't floor a man shorter than Irvin Carlsted—ISD center and tallest squad member. Despite this advantage in height, the Wilsonmen must be ruled a distinct favorite in regards to previous showings of both clubs.

Leo Cecil and Alta Hood will be at forwards for the Tigers; Irvin Carlsted center and Ledy Raffel and Gilbert Paul, guards. Wilson expects to go all the way with this lineup.

**Rott Works Hard**

Routt coach Paul Stuedt worked his Rocket basketballers hard Monday evening in an attempt to uncover defensive troubles that have plagued the eastsiders in their first two outings. They nipped Franklin by one-point margin in their home opener but succumbed to Cathedral in their second time out.

Though he has been experimenting with the Routt lineup extensively for the past week and lane will undoubtedly see the duties divided equally among eight boys, the starters named were Hinky Henry and Dick Casler, forwards; Paul Sauer center; A. J. Spreen, Sonny Loneragan or Jim Sellers, guards.

**Dixie Walker Is Named To Manage Atlanta Crackers**

Baltimore, Dec. 5.—(AP)—Dixie Walker, former Brooklyn Dodger, and Pittsburgh Pirate outfielder, was named today to manage the Atlanta Crackers in the southern association.

Announcement of his selection was made by Earl Mann, Atlanta president, who is here for the annual minor league baseball convention.

Mann said Walker had been signed to a one-year contract but did not disclose salary terms.

The ex-big leaguer was released last year by the Pirates, whom he joined after a long siege in Brooklyn.

Walker, who was active in the majors for 17 years, said he will remain on the active playing list but only as a pinch-hitter and utility outfielder.

## 28-Year-Old Ashland Tournament Is Stopped

By Bob Duerwer

Waverly—Much to the regret of everyone involved, one of central Illinois traditions, the Ashland Invitational tournament will not be run off this year, for the first time in 28 seasons.

This annual affair has rated along with the Winchester tourney as the oldest in the state. It was able to survive both the depression era and World War II, but as other schools with larger gymnasiums started tournaments of their own, the number of participants got fewer and fewer until only seven teams were in last year. The meet started in 1923 when Athens took home the bacon and Waverly was the last champions.

Hardest to realize this fact are fans in the town of Ashland who have always taken this for granted and if current plans hold up the Ashland A. C. may hold an independent tournament to take its place. For old times sake, let's take a final gander at the list of former champions and see how many memories it brings back.

## Mayor Appoints Five Citizens To Serve On Zoning Commission

A zoning commission of five citizens to serve while Jacksonville is considering the adoption of a new zoning ordinance was appointed by Mayor Hoagland at last night's council session. Members of the commission are Earl M. Spink, Lawrence Crawford, George Lukeman, Jr., Maurice Updegraff and Attorney John Bellatti.

The mayor said the assistance of a zoning commission was suggested by Harland Bartholomew & Associates of St. Louis, the city planning firm which was engaged by the council to prepare maps and a proposed new ordinance.

Membership of the commission as announced by Mayor Hoagland was confirmed on motion of Alderman Haneline, seconded by Alderman Brune.

The commission will serve while the preliminary groundwork is laid for a new ordinance which, if adopted, would guide the ordinance committee in the handling of zoning matters for some years to come. The final function of the commission will be the submission of plans to the council for official action.

City Attorney Fay informed the council that the St. Louis firm has completed the preparation of use maps of the city, and also has prepared several area maps. He said the company will submit a detailed report and recommendations for an ordinance sometime in January.

## House Of Mound Builders Located By U. Of I. Class

A University of Illinois archeologist and a group of his students spent the Thanksgiving holidays excavating an Indian mound on the Robert Pool farm, located on the bluff road north of Chambersburg.

Yesterday Prof. John C. McGregor announced that they had located the site of an 800 year old "mound builder" Indian home.

The group found an elongated oval house, the side walls formed by poles set into the ground. The house was approximately 25 feet across. Fragments of roof clay, burned to a bright red brick color also were found.

Among objects unearthed were a carved bear tooth ornament, several arrow and spear points, numbers of flint tools and other objects, some large blades of knives, grinding and polishing stones and hundreds of broken pieces of pottery. Several articles represent varieties of design not previously found in this area, McGregor said.

The Indian tribe, known as the Hopewells, once extended from Ohio to the Missouri River and from Louisiana to the Great Lakes. Archeologists are seeking to determine where they originated, whether they spread eastward or westward and where they went.

Among students in the excavation party were William J. Beeson of Paris, Ill., and Robert W. Fuelleman of Champaign, Ill.

Early this fall Prof. McGregor and his associates made the initial discoveries on the Pool farm. One of the items was a well preserved pipe carved in the shape of an unidentified animal. It and other relics of the Hopewell age are now housed in the University of Illinois museum.

### Shirley Temple Wins Divorce

Los Angeles, Dec. 5—(P)—Shirley Temple won a divorce today, testifying that her husband, actor John Agar, drank to excess, romanced other women and even drove her to thinking of suicide.

Composed but tearful, the 21-year-old actress who enchanted millions as a child star, told the court: "About five months after we were married he began not coming home nights for dinner. First it was 8 o'clock, then 10 o'clock and finally 2 and 3 o'clock in the morning."

"What was his condition when he did come home?" asked her attorney. "Very often intoxicated," she replied. "When I was about two months pregnant he came home about 4 a.m. with lipstick all over his face. He was very intoxicated."

"Did his conduct become worse?" "When I was about five months pregnant, at 1:30 a.m. he brought a girl into our bedroom. He was supposed to be out playing cards with the fellows. But he came home with several people and he brought this girl into the room and said 'Let's all go out to a party.' Of course, I didn't get up. He left and returned about 4 a.m."

"One night Jack came home drunk again, very belligerent, and called me names. After dinner I jumped in my car. I was going to drive over a cliff, or something, but instead drove to the doctor."

## Woman Leaps From Car, Dies; Coroner's Jury Absolves Her Husband

Fred Northcutt, 54 year old Bluffs farm hand, was "absolved of all blame" by a coroner's jury last night after an investigation into the death of his wife, Eva, 49, who died of a fractured skull received Sunday morning when she jumped from a moving Model A Ford car driven by Northcutt on Route 104, four miles west of Chapin.

Witnesses examined by Coroner Clarence H. Muehlhausen included State Highway Patrolman Merle Balke of Winchester, Deputy Sheriff L. L. Edlen, Mr. Northcutt and Bernard Flynn, also of Bluffs. The officers described the scene of the tragedy, the husband told of the illness and moodiness of his wife, particularly during the last year. His testimony was sustained by Flynn, a next door neighbor.

Jury members were Elmer Midden-dorf, Juanita Edlen, Alvin Midden-dorf, Elza Perry, James E. Fountain and Fletcher Mathes.

### In Jacksonville Saturday

The husband said he had accompanied a neighbor to Jacksonville early Saturday evening. He bought a half-pint of whiskey and started home soon after 9 p.m. At the Route 104-100 intersection they came upon the scene of a traffic accident, where automobiles owned by Lloyd E. Smith of Alexander and Raymond Todd had collided. Among the first arrivals there, the two men rendered assistance until the ambulance had arrived and all six passengers involved were headed toward the hospital.

Northcutt said he got home "about 10:35, listened to the radio and drank the half-pint, with the exception of one drink, I went to bed about 12:30 a.m."

### "In Good Spirits"

He said he prepared breakfast around 6:30 a.m. His wife ate with him. She appeared in good spirits, he continued.

She asked to be brought to visit a friend in Jacksonville. Enroute she charged him with being with another woman the night before. This he denied.

"She said, 'If you don't admit it, I'll jump out of this car.' I didn't pay any attention to her. She often said she was going to end it all, especially during the last year," the witness asserted.

He estimated his speed at 15-20 miles an hour. He stopped the car within a few yards. She was lying unconscious on the pavement, bleeding profusely from a skull fracture.

### Near Edge Of Concrete

Her head is believed to have struck the concrete about 14 inches from the edge of the pavement.

First arrivals at the scene were James Daily and Henry Davies, both of Kinkaid who hurried to the home.

### ICC Asks Pipeline Allocate More Gas To Illinois Users

Chicago, Dec. 5—(P)—The Illinois Commerce Commission said today it had asked that additional supplies of gas made available to Panhandle Eastern Pipe Line company be allocated partly to Illinois utilities for home heating purposes.

The ICC filed the statement with the Federal Power Commission Friday.

It protests an FPC examiner's plan of distribution because it allocates most of the new gas available to industrial users and permits Panhandle to determine what quantities. The commission proposed instead that the gas be allocated according to the ratio of domestic space heating loads served prior to Dec. 12, 1946.
